Competitor Overview GetYourGuide

A starting point for reviewing how a large marketplace presents, sells, and supports tours and activities.

Company	GetYourGuide
Category	Tours and activities marketplace
Purpose	Reference for further research

Why it is relevant

GetYourGuide is useful for understanding common marketplace patterns. It should not be treated as a complete model for Harbor & Pine, which also needs to coordinate guides, operators, and day-of exceptions.

Areas to review

- Discovery by destination, date, activity type, and availability.
- Activity details, including duration, language, accessibility, and restrictions.
- Booking confirmation, vouchers, meeting points, changes, and cancellations.
- Differences between the traveler experience and supplier operations.
- How policies are communicated at the activity level rather than as one universal rule.

Research questions

- How does the product communicate booking certainty?
- What information is prioritized before and after payment?
- How are day-of instructions and meeting points explained?
- How are exceptions handled when the voucher is not the final ticket?
- What operational responsibilities remain with the supplier?
